INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Peninsula Open Space Trust
Palo Alto, California

We have audited the accompanying financial statements of Peninsula Open Space Trust (the "Organization"), a California non-profit, which comprise the statements of financial position as of June 30, 2021 and 2020, and the related statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

To the Board of Directors of
Peninsula Open Space Trust
Palo Alto, California

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Organization as of June 30, 2021 and 2020, and the changes in its net assets, functional expenses and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

PENINSULA OPEN SPACE TRUST
Notes to the Financial Statements
June 30, 2021

Note 1 - Organization:

Peninsula Open Space Trust (the “Organization”) was incorporated in California as a not-for-profit corporation in 1977. The mission of the Organization is to protect open space on the Peninsula and in the South Bay for the benefit of all. This purpose is accomplished through gifts and purchases of land, transfer to public agencies, placement of conservation easements or deed restrictions on land, cooperation with private land owners, active stewardship of owned lands and monitoring of transferred lands to ensure natural and agricultural values are maintained.

The Organization has been classified as a publicly supported, tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code, and is exempt from California franchise taxes under Revenue and Taxation Code Section 23701(d). The Organization’s support and revenues are primarily from contributions and investment returns.

Note 2 - Summary of significant accounting policies:

Basis of accounting - The financial statements have been prepared on the accrual basis of accounting which recognizes revenue and support when earned and expenses when incurred and accordingly reflect all significant receivables, payables and other liabilities.

Basis of presentation - The Organization presents its financial statements in accordance with Generally Accepted Accounting Principles in the United States of America (“GAAP”), which requires the Organization to report information regarding its financial position and activities according to two classes of net assets:

- *Without donor restrictions* consist of net assets which are available to support all activities of the Organization without restrictions and include those net assets whose use is not restricted by donors, even though their use may be limited in other respects, such as by contract or board designation. The Organization’s Board has designated \$290,049,676 and \$264,830,689 of net assets without donor restriction for specific programmatic purposes as of June 30, 2021 and 2020, respectively.
- *With donor restrictions* represent contributions where use is limited to donor-imposed stipulations that expire through the passage of time or other restrictions and for which the applicable restriction was not met as of the end of the current fiscal period. Other donor restrictions are perpetual in nature, where by the donor has stipulated the funds to be maintained in perpetuity.

PENINSULA OPEN SPACE TRUST
Notes to the Financial Statements
June 30, 2021

Note 2 - Summary of significant accounting policies (continued):

Use of estimates - The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates included in these financial statements relate primarily to include the discount for present value on pledges receivable, the useful lives of property and equipment, the allocation of expenses by function, the valuation of land and conservation easements acquired by or donated to the Organization and the future asset retirement obligations.

Revenue recognition - The Organization recognizes exchange revenue in accordance with Accounting Standards Codification (“ASC”) 606, Revenue from Contracts with Customers, as amended. ASC 606 applies to exchange transactions with customers that are bound by contracts or similar arrangements and establishes a performance obligation approach to revenue recognition.

Exchange revenue: Timber - The Organization sells timber harvested on their properties. The performance obligation is the delivery of the good to the customer. The Organization establishes the transaction price based on quoted prices in active markets for similar timber products. As each item is individually priced, no allocation of the transaction price is necessary. The Organization recognizes revenue when the customer takes possession of the timber product. No right of return exists for the timber.

The Organization presents exchange transaction revenues on the statement of activities as part of rental and other income. The Organization received timber revenues of \$219,807 and \$133,419 for the years ended June 20, 2021 and 2020, respectively.

Contribution revenue - The Organization recognizes contributions received including unconditional pledges and promises to give as revenue at their fair value in the period the contribution or pledge is received. Contributed support that is restricted by the donor is reported as an increase in net assets with donor restrictions and released from restrictions if the restriction expires in the reporting period in which the support is recognized. When such restrictions expire, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and the reported amounts released from restriction. All other contributed support is recognized as revenue without restrictions when received or unconditionally promised.

Note 2 - Summary of significant accounting policies (continued):

Revenue recognition (continued) - In-kind contributions - Significant donated property and equipment are recorded at estimated fair value at the time of receipt. Donated land is recorded at fair value on the date of receipt. In-kind contributions of land totaled \$130,000 and \$1,825,000 for the years ended June 30, 2021 and 2020, respectively. Donated marketable securities are recorded at fair value on the date the securities are received. In-kind contributions of securities totaled \$2,862,369 and \$2,003,735 for the years ended June 30, 2021 and 2020, respectively. There were no in-kind contributions of securities held in charitable remainder trusts for the years ended June 30, 2021 and 2020. Contributed services, which require a specialized skill and which the Organization would have paid for if not contributed, have been recorded at their estimated fair market value as appropriate. In-kind legal and professional services and donated goods for program services were recognized in the amount of \$2,200 for the year ended June 30, 2020. There were no in-kind legal and professional services and donated goods for program services recognized for the year ended June 30, 2021. These amounts have been recorded as both revenue and expenses in the statement of activities and changes in net assets. Numerous other volunteers donate significant amounts of their time to the Organization's fundraising and other activities. No amounts have been recorded for these donated services since they do not meet the criteria noted above.

Functional expense allocations - The costs of providing various program and supporting services have been summarized on a functional basis in the statement of activities and changes in net assets. Certain costs are allocated between programmatic and support services based on estimates of time, space, or other factors. Salaries and fringe benefits are allocated on a percentage basis between functional categories based on job description or time estimates. Salary allocation percentages are also used to allocate certain indirect costs, including but not limited to facilities expenses, office supplies and equipment, information technology expenses and depreciation.

Cash and cash equivalents - Cash and cash equivalents consist of cash and money market funds. For purposes of reporting cash flows, the Organization considers all highly liquid investments with a maturity of 90 days or less at the date of purchase to be cash equivalents. Cash balances held in managed investment accounts are excluded from cash and cash equivalents.

Restricted cash - In connection with a purchase agreement for land held-for-conservation, the Organization is required to maintain \$225,023 of restricted cash for the purpose of maintenance activities.

Accounts receivable and allowance for doubtful accounts - Accounts receivable consists primarily of amounts due to the Organization in conjunction with the Organization's program operations. An allowance reserve for uncollectible accounts receivables, if any, is determined based on management's evaluation of each outstanding accounts receivable for collectability. Management has determined the outstanding accounts receivable to be fully collectible for the fiscal years ended June 30, 2021 and 2020, respectively.

PENINSULA OPEN SPACE TRUST
Notes to the Financial Statements
June 30, 2021

Note 2 - Summary of significant accounting policies (continued):

Pledges receivable - Pledges receivable are either unconditional or conditional. Unconditional pledges receivable are pledges that depend only on the passage of time or the demand by the donor for performance. A conditional pledge receivable is a pledge that depends on the occurrence of a specified future and uncertain event to bind the promisor. The Organization holds one conditional award from a single donor and three contributions subject to matching requirements totaling \$63,000 for the year ended June 30, 2021. There were no conditional pledges for the year ended June 30, 2020. Unconditional pledges receivable represent the remaining pledges due from donors who have pledged funds to the Organization for use in its programs. Unconditional pledges that are to be collected within one year are recorded at net realizable value. Unconditional pledges that are expected to be collected in future years are initially recorded at the fair value of their estimated future cash flows as of the date of the promise to give through the use of a present value discount technique.

Promises to give that are expected to be collected after one year are discounted using a discount rate ranging from .1% to 3% as of June 30, 2021 and 2020. An allowance reserve for uncollectible pledges, if any, is determined based on management's evaluation of each outstanding pledge for collectability. The financial statements reflect these pledges net of the discount and allowance.

Grants receivable - The Organization receives grants which may be granted and paid within the same year granted or payable to the Organization over multiple years. The Organization discounts the multi-year grants receivable at a reasonable rate of interest of 3%. There were no grants receivable for the years ended June 30, 2021 and 2020.

Bequests receivable - The Organization records a bequest receivable when it receives written notification that it has been named as a beneficiary of an irrevocable trust or estate for which the amount to be received can be reasonably estimated. If appropriate, the amount is adjusted for fair value measurements, if measurable.

Employee retention credit receivable - Under section 2301 of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"), the Organization has elected to claim the Employee Retention Credit ("ERC") which is a refundable tax credit against certain employment taxes. Management determined approximately \$655,000 will be refunded back based on qualified wages incurred as of June 30, 2021. As the conditions for the credit existed as of June 30, 2021, management recognized the benefit as a receivable on the statement of financial position for the fiscal year then ended.

PENINSULA OPEN SPACE TRUST
Notes to the Financial Statements
June 30, 2021

Note 2 - Summary of significant accounting policies (continued):

Financing receivables and related allowance for credit losses - The Organization has financing receivables, which consist of three portfolio segments as of June 30, 2021 and 2020. A portfolio segment is defined as the level at which the Organization develops and documents a systematic methodology to determine the allowance for credit losses. The allowance for financing receivables represents management's estimate of probable losses inherent in the Organization's financing activities. Credit exposures deemed to be uncollectible are charged against these accounts. Cash recovered on previously charged-off amounts is recorded as a recovery to these accounts. Management evaluates the adequacy of the allowance for financing receivables by performing periodic and systematic detailed reviews of its portfolio segment. The detailed reviews to identify credit losses and to assess the overall collectability of these portfolios are based on historical loss experience, economic conditions, payment activity, credit quality indicators, performing or nonperforming aspects and bankruptcies, as discussed further in Note 5.

Non-performing financing receivables include financing receivables that have been placed on nonaccrual status or are impaired. The Organization assesses performance of financing receivables on an individual basis based on payment activity and knowledge of the financial state of third party obligors. Accrued interest receivable is expensed when a financing receivable is placed on nonaccrual status. Interest collections on nonaccrual status financing receivables are credited when collected.

Interest receivable - Interest receivable includes accrued interest from notes receivable and investment related receivables including interest receivable from bonds and other dividend and interest earnings outstanding at year-end.

Publicly traded investments - The Organization invests in marketable securities and corporate bonds. All debt securities and equity securities are carried at quoted market prices as of the last trading date of the Organization's fiscal year. The Organization's Investment Committee has established an investment policy and has engaged the services of an outside investment advisor to assist in such matters. Contributions of investments are recorded at estimated fair value at the date of donation and are sold as soon as reasonably possible, unless otherwise directed by the Organization's financial advisors or the Investment Committee of the Board of Directors. Unrealized gains and losses that result from market fluctuations are recognized in the period such fluctuations occur. Realized gains and losses resulting from the sales or maturities is the difference between the investments' cost basis and the sale or maturity settlement of the investment. Dividend and interest income are accrued when earned.

PENINSULA OPEN SPACE TRUST

Notes to the Financial Statements

June 30, 2021

Note 2 - Summary of significant accounting policies (continued):

Investments in private equity funds - To the extent that these funds invest in publicly traded investments, they are carried at quoted market prices as described above. The remaining investments are carried at estimated fair values as determined by the investment manager of these securities after giving consideration to operating results, financial condition, recent sales prices of issuers' securities and other pertinent information. These investments are valued at the Organization's percentage interest owned in these investment companies. Because of the inherent uncertainty of valuations, these estimated fair values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

Fair value of financial instruments - Unless otherwise indicated, the fair values of all reported assets and liabilities approximate the carrying values of such amounts.

Investments held in charitable remainder trusts - The Organization is the remainder beneficiary of certain charitable remainder trusts. When the Organization acts as the trustee of the charitable trust, the Organization records the investment assets held in the trust and records a corresponding liability for the present value of the estimated payments to be made to the lifetime beneficiaries. When the Organization is not the trustee, it records a contribution receivable for the present value of added expected future benefit to be received by the Organization. Certain charitable remainder trust notifications that are not measurable or for which the fair value is not determinable are not recorded until such time that they become measurable.

Life interest in real estate - The Organization occasionally receives contributions of real estate which the donor retains the right to use for the remainder of the donor's life. During the donor's lifetime, the donor is responsible for executory costs related to the property. The Organization records the fair value of the real estate as an asset and records a corresponding liability for the life interest based upon the actuarial life of the donor using IRS guidance. There were no life interests in real estate as of June 30, 2021 and 2020, respectively.

Property held-for-sale - The Organization occasionally receives donations of real property with no significant ecological value but which can be sold to provide funds for the Organization to carry out its conservation work. These properties are carried at the lower of the Organization's original book value or fair value less cost to sell. There were no properties held-for-sale as of June 30, 2021 and 2020, respectively.

Note 2 - Summary of significant accounting policies (continued):

Land held-for-conservation - The term “land” is used throughout these financials statements to represent real property which includes amongst other things, land, structures, improvements, easements and various other rights. Land held-for-conservation is reported at the original book value. The Organization records such land at cost, if purchased, or at estimated fair value at the date of acquisition if all or part of the land was received as a donation. Contributed revenue is recognized for the difference, if any, between the purchase price and the estimated fair value. Fair value is predominantly determined by an independent appraisal. During the time that the Organization is holding the land, all improvements and maintenance costs are recorded as part of program expenses.

As part of its program, the Organization sells or donates these lands to various government entities for permanent protection. In instances where the Organization sells or donates the land for an amount below the original book value, in-kind grant expense is recognized for the difference between the selling price and the original book value. Grants of land totaled \$135,000 and \$13,413,275 in the fiscal years ending June 30, 2021 and 2020, respectively.

Non-controlling interest - The Organization holds a 39.54% and 39.44% non-controlling interest in Lake Lucerne Mutual Water Company (“LLMWC”), at June 30, 2021 and 2020, respectively. LLMWC is a California nonprofit corporation formed to administer the water rights of several properties bordering the Little Butano Creek and the Bean Hollow Watershed in accordance with a court judgment. The investment is recorded under the equity method of accounting, which approximates fair value, and is recorded as part of land held-for-conservation on the accompanying statement of financial position. The investment in LLMWC as of June 30, 2021 and 2020 was \$48,302 and \$77,988, respectively, and is recognized within prepaid expenses and other assets on the statements of financial position.

Conservation easements - The Organization periodically receives or purchases conservation easements which limit the allowable uses of the related property to open space uses consistent with the Organization’s mission. Contributed conservation easements received are recorded as land contributions based on the estimated value given up by the land owner by restricting the use of the property with an easement. The Organization received no donated conservation easements in the fiscal years ending June 30, 2021 and 2020. Conservation easements purchased bear no future benefit to the Organization and are therefore included as part of land and easement transactions expense in the year they are acquired. In connection with the transfer or sale of land, the Organization may retain a conservation easement on the land. Because these easements bear no possible future economic benefit to the Organization, they are not recorded on the Organization’s statement of financial position. Sometimes, the Organization may sell a conservation easement to a nonprofit or public agency partner while retaining ownership of the property. The Organization purchased or received conservation easements totaling \$585,000 for the year ended June 30, 2021. No easements were purchased or received during the year ended June 30, 2020.

Note 2 - Summary of significant accounting policies (continued):

Property, equipment, amortization, and depreciation - Purchased property and equipment used in the Organization's operations are stated at cost. Significant donated property and equipment are recorded at their estimated fair value on the date of receipt. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support. Depreciation is computed using the straight-line method over the estimated useful lives of the assets ranging from three to forty years. Building improvements are amortized using the straight-line method over the assets' estimated useful lives. The Organization capitalizes property and equipment with a value over \$5,000. Expenditures for maintenance and repairs that do not improve or extend the lives of the respective assets are expensed as incurred.

Construction-in-progress - Construction-in-progress represents assets acquired and not yet placed into service. In the event applicable interest costs associated with the construction of new facilities are material, the Organization will capitalize the respective interest.

Long-lived assets - The Organization reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of any assets may not be recoverable. No such impairments have been identified to date.

Stewardship liabilities - During the year ended June 30, 2011, the Organization and Sempervirens Fund jointly established a \$1,300,000 stewardship fund as part of the transfer of the Little Basin property to California State Parks. The fund is being used to improve the property to enhance public use and recreation and had \$82,431 remaining at June 30, 2021 and 2020, respectively. Additionally, the Organization has a liability of \$388,760 related to active remediation efforts on a separate property for the years ended June 30, 2021 and 2020, respectively.

Asset retirement obligations - Asset retirement obligations are mitigation obligations related to the Organization's land holdings. The Organization recognizes a liability for obligations as of the date the obligation is identified, which is generally upon acquisition of the asset. The Organization has conditional asset retirement obligations related to removal of in-stream structures, asbestos cleanup related to structures on property held for conservation, and removal of soil contamination. The retirement obligation is based on the present value of management's estimates of the costs of in-stream structure, asbestos, and soil contamination removal. This liability will be adjusted in future periods based on period-to-period changes in the liability resulting from (a) the passage of time and (b) revisions to either the timing or the amount of the original estimate of undiscounted cash flows. Asset retirement obligations were estimated at \$1,799,924 and \$1,760,215 for fiscal years ending June 30, 2021 and 2020, respectively.

Note 2 - Summary of significant accounting policies (continued):

Endowment accounting and interpretation of relevant law - The Organization's endowment consists of two donor-restricted endowment funds established to advance the mission. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Endowment accounting and interpretation of relevant law (continued) - The Organization is subject to the Uniform Prudent Management of Institutional Funds Act of 2006 ("UPMIFA"), the provisions of which apply to its endowment funds. As required by UPMIFA and GAAP, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Advertising - Advertising costs are expensed as incurred. Advertising and promotion expenses were \$955,742 and \$507,851 for the years ended June 30, 2021 and 2020, respectively.

Reclassifications - Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year financial statements. These reclassifications have no effect on previously reported change in unrestricted net assets.

Accounting for uncertainty in income taxes - The Organization evaluates its uncertain tax positions and will recognize a loss contingency when it is probable that a liability has been incurred as of the date of the financial statements and the amount of the loss can be reasonably estimated. The amount recognized is subject to estimate and management judgment with respect to the likely outcome of each uncertain tax position. The amount that is ultimately sustained for an individual uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized. As of June 30, 2021 and 2020 management did not identify any uncertain tax positions.

Recently adopted accounting principles - During the year, the Organization adopted the provisions of Financial Accounting Standards Board ("FASB") Accounting Standard Update ("ASU") 2018-13 "Fair Value Measurements: Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurements". This ASU modifies the disclosure requirements for fair value measurements. Those modifications include the removal and addition of disclosure requirements as well as clarifying specific disclosure requirements. The ASU is effective for fiscal years beginning after December 15, 2019. Certain provisions of the ASU will be applied prospectively while the rest of the provisions will be applied retrospectively. The ASU has been applied retrospectively to all periods presented, with no effect on net assets or previously issued financial statements.

Note 2 - Summary of significant accounting policies (continued):

Recently adopted accounting principles (continued) - In May 2014, the FASB issued ASU No. 2014-09 “Revenue from Contracts with Customers (ASC 606)” which provides a five-step analysis of contracts to determine when and how revenue is recognized and replaces most existing revenue recognition guidance in U.S generally accepted accounting principles. The core principle of the new guidance is that an entity should recognize revenue to reflect the transfer of good and services to customers in an amount equal to the consideration the entity receives or expects to receive. ASC 606 is effective for annual reporting periods beginning after December 15, 2019 and interim periods within annual periods beginning after December 15, 2020. The Organization adopted ASC 606 with a date of the initial application of July 1, 2020. The Organization applied ASC 606 using the cumulative effect approach under the modified-retrospective method and determined no adjustment was needed to the opening balance of net assets at July 1, 2019. The ASU has been applied retrospectively to all periods presented, with no effect on net assets or previously issued financial statements.

Recent accounting pronouncements - In February 2016, the FASB issued ASU No. 2016-02, Leases (*Topic 842*). This ASU requires that a lease liability and related right-of-use-asset representing the lessee’s right to use or control the asset be recorded on the statement of financial position upon the commencement of all leases except for short-term leases. Leases will be classified as either finance leases or operating leases, which are substantially similar to the classification criteria for distinguishing between capital leases and operating in existing lease accounting guidance. As a result, the effect of leases in the statement of activities and changes in net assets and the statement of cash flows will be substantially unchanged from the existing lease accounting guidance. In January 2018, the FASB issued ASU No. 2018-01 “Leases: Land Easement Practical Expedient for Transition to Topic 842.” The ASU provides additional guidance in relation to implementing the new lease accounting guidance. During June 2020, the FASB delayed the effective date for nonpublic entities to fiscal years beginning after December 15, 2021. Early adoption is permitted. The Organization’s management has not yet determined the impact that implementation of this ASU will have on the Organization’s financial statements.

In September 2020, FASB issued ASU 2020-07, Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets. This ASU is meant to improve financial reporting by providing new presentation and disclosure requirements about contributed nonfinancial assets for not-for-profit entities (“NFP”), including additional disclosure requirements for recognized contributed services. This ASU requires that all NFP receiving nonfinancial assets must present contributed nonfinancial assets as a separate line item in the statement of activities, apart from contributions of cash and other financial assets. The ASU also requires further disclosure on the contributed nonfinancial assets in the notes to the financial statements. The ASU will be applied retrospectively and is effective for fiscal years beginning after June 15, 2021, and interim periods beginning after June 15, 2022. Early adoption is permitted. The Organization’s management has not yet determined the impact that implementation of this ASU will have on the Organization’s financial statements.

Note 2 - Summary of significant accounting policies (continued):

Subsequent events - Subsequent events have been evaluated through the date of the independent auditors' report, which is the date the financial statements were available to be issued and it has been determined that there are no material subsequent events that require an estimate to be recorded or disclosed as of June 30, 2021.

Note 3 - Liquidity and availability of funds:

The Organization's financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position date, are as follows:

	<u>2021</u>	<u>2020</u>
Financial assets at year end:		
Cash and cash equivalents	\$ 1,163,281	\$ 388,570
Accounts receivable	746,807	1,109,982

Financial assets available to meet general expenditures over the next twelve months	<u>\$ 37,333,908</u>	<u>\$ 35,359,591</u>

The Organization regularly monitors liquidity in order to meet its operating needs and other contractual obligations as they come due, generally maintaining a two-year operating reserve. The Board designates all other net assets for longer-term use, including conservation easement monitoring, land acquisition and stewardship needs. Amounts not available for general operating use due to Board designations could be drawn upon with Board approval if needed.

Pledges receivable

Pledges receivable at June 30, 2021, are expected to be received as follows:

Year Ending June 30,	
<u>2022</u>	\$ 613,841
2023	300,000

When the Organization is aware of circumstances that may impair a specific donor's ability to meet financial obligations, the Organization records a specific allowance, and thereby reduces the net receivable to the amount reasonably believed to be collectible. Write-offs have historically been within management's expectations. The Organization did not record an allowance for doubtful accounts as of June 30, 2021. The allowance for doubtful accounts as of June 30, 2020 was \$27,000.

Note 4 - Pledges, grants and bequests receivable (continued):

Bequests receivable

The Organization had total bequests receivable of \$1,103,964 and \$1,291,266 at June 30, 2021 and 2020, respectively. All amounts are expected to be collected during the year ended June 30, 2022.

Grants receivable

There were no grants receivable at June 30, 2021 and 2020.

Note 5 - Financing receivables and allowance for credit losses:

Financing receivables consist of the following at June 30:

	<u>2021</u>	<u>2020</u>
Note A	\$ 26,743,961	\$ 26,743,961
Note B	2,476,749	2,548,181
Note C	<u>-</u>	<u>54,618</u>
Total financing receivables	29,220,710	29,346,760

Financing receivable, net	<u>\$ 24,076,749</u>	<u>\$ 24,202,799</u>

Note A is an advance to an individual land owner with the objective of facilitating protection of certain land. The note, originally due July 1, 2019 with an option to extend to July 1, 2049, was extended to the current due date of July 1, 2025 as per contract options. This note bears interest at 8.5% per annum (compound). The note is fully secured, after the credit allowance described below, by a deed of trust. Per the terms of the loan agreement, assuming all conditions were met, the loan increased annually beginning in the year ended June 30, 2015 by \$250,300 (plus closing costs) until the loan balance was \$26,743,961.

Note B is a participation loan with an external lender in which the lender will originate and service purchase money loans on designated properties the Organization owns and sells. There are two loans as of June 30, 2021. One loan is due May 2049 with a loan amount of \$1,769,794 and bears interest at 1.75% per annum (compound). The second loan is due May 2049 with a loan amount of \$706,955 and bears interest at 1.75% per annum (compound). Note B had interest receivable of \$18,695 and \$1,071 as of June 30, 2021 and 2020, respectively.

Note 5 - Financing receivables and allowance for credit losses (continued):

Note C was an undivided 11.24% interest in a private financing arrangement, which the Organization received as part of a larger bequest. Full payment was received during the fiscal year ended June 30, 2021.

The Organization did not have any interest receivable related to Note A of the financing receivables for the years ended June 30, 2021 and 2020. It is the Organization's intention to receive a property in consideration for Note A. The estimated fair value of the property to be received is approximately \$21,600,000.

Credit quality indicators - The Organization's credit quality indicators consist of credit risk profiles based upon payment activity. Payment activity is either performing or nonperforming. Note A is considered to be performing. The Organization has placed Note A on nonaccrual status based on the most recent property valuation.

Ending allowance for credit losses and analysis of past due financing receivables - The Organization recorded an allowance for credit losses for Note A of \$5,143,961 for the years ending June 30, 2021 and 2020, respectively. The allowance was determined by comparing the loan balance with the estimated fair value of the property securing the note. There are no amounts past due and the Organization considers the ending recorded value to be fully collectible.

Note 6 - Investments:

The Organization follows the provisions of the Fair Value Measurements and Disclosure topic of the FASB Accounting Standards Codification. These standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Organization uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

An investment's classification within a level in the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Organization's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment. The categorization of the investment within the hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to the Organization's perceived risk of that investment.

Note 7 - Investments and remainder interests in charitable remainder trusts and gift annuities:

The Organization is a trustee and remainder beneficiary of seven irrevocable charitable remainder trusts. Provisions of the trusts require distribution of a percentage of the net fair market value or a fixed amount of the trusts to designated beneficiaries on a quarterly basis during their lifetimes. At the end of the trusts' terms, after payments to other remainder beneficiaries, the remaining assets will be available for the Organization's unrestricted use. The portion of the trusts attributable to the present value of the estimated future benefits to be received by the Organization was recorded as contributions with donor restrictions in the period the trust was established. On an annual basis, the Organization revalues and records a liability for the present value of required distributions to the designated beneficiaries based on actuarial assumptions.

The present value of the estimated future payments (\$3,349,984 and \$2,911,529 at June 30, 2021 and 2020, respectively) is calculated assuming investment returns of 5% to 7%, discount rates of 2.4% to 5.11% and life expectancies based on applicable mortality tables. At June 30, 2021 and 2020, investments held in charitable remainder trusts were recorded at fair value. All investments are at quoted prices in active markets for identical assets (level 1 inputs) as follows:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$ 86,764	\$ 76,788

Note 7 - Investments and remainder interests in charitable remainder trusts and gift annuities (continued):

The Organization is also a remainder beneficiary of three irrevocable charitable remainder trusts for which the Organization does not serve as the trustee, sixteen charitable gift annuities, and one irrevocable bequest. Provisions of the charitable remainder trusts require distribution of a fixed percentage of the net fair market value of the trust's assets to the named beneficiaries on a quarterly basis during their lifetime. Provisions of the charitable gift annuities require distribution of a fixed dollar amount to the named beneficiaries on a quarterly basis during their lifetime. The assets remaining after the death of the beneficiaries will be available for the Organization's use. The Organization records as contributions with donor restrictions the present value of the estimated future benefits to be received discounted at a rate of 1.2% to 4.37% as established by the IRS and applicable mortality tables, noted on the statement of financial position as residual interest in charitable remainder trusts. There is no further liability beyond the asset balance for the trusts, gift annuities or bequest.

The present value of the estimated future benefits of all remainder trusts based on IRS guidance and the actuarial life expectancy of the donor are presented below at June 30:

Note 10 - Accounts payable and other liabilities:

Accounts payable include the Organization's operating expenses, which have been billed but not paid. Other liabilities include the Organization's vacation accrual due to employees, life estate obligations, and other accrued expenses incurred in the normal course of business. Vacation accrues based on the number of years of service of each employee, ranging from 10 to 20 working days per year. Vacation regularly accrues up to a maximum of 1.5 times the employee's annual accrual rate. Life estate obligations are calculated according to IRS guidance and life expectancy tables.

Accounts payable and other liabilities consisted of the following at June 30:

	<u>2021</u>	<u>2020</u>
Accounts payable	\$ 753,696	\$ 1,185,867

Farm labor housing note C	<u>225,807</u>	<u>245,706</u>
Total notes payable	<u>\$ 4,015,136</u>	<u>\$ 8,083,008</u>

As of June 30, 2021, the notes payable balance includes one program-related investment loan obtained as part of a land transaction and two forgivable loans.

On July 16, 2014, the Organization borrowed \$3,520,000 with 1% interest payments due annually. As of June 30, 2021, the Organization was in compliance with all covenants related to programmatic use, reporting and overall debt carried by the Organization. The loan is scheduled for repayment upon its maturity date of July 16, 2021.

On June 9, 2020, the Organization borrowed \$4,025,000 with a maturity date no later than the two year anniversary of the closing of the supported land transaction. Upon successful acquisition of the subject property, \$2,025,000 of this loan is subject to forgiveness. The conditions for forgiveness were met during the fiscal year ended June 30, 2021 and \$2,025,000 was forgiven within contributions and grants on the statement of activities. On October 15, 2020, the Organization paid the remaining loan balance of \$2,000,000.

The two forgivable loans are from a governmental entity to provide farm labor housing on two separate properties. Both Note A and Note C are interest-free loans of up to \$300,000 each and will be forgiven at a rate of \$20,000 a year per note once certain criteria are met. The Organization has recorded imputed interest at the rate of 3% for the years ended June 30, 2021 and 2020, and will record grant revenue in future years if the conditions are fulfilled and the loans are forgiven.

Note 14 - Endowment (continued):

Funds with deficiencies: From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Organization to retain as a fund of perpetual duration. There were no deficiencies of this nature as of June 30, 2021 and 2020.

Return objectives and risk parameters: The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity or for a donor-specified period as well as board-designated funds. Under this policy, as approved by the Organization's Investment Committee, the endowment assets are invested in a manner that is intended to provide a moderate average annual real return in excess of inflation. Actual returns in any given year may vary from this amount.

Strategies employed for achieving objectives: To satisfy its long-term rate-of-return objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation that places an emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending policies and how the investment objectives relate to spending policy: The Organization has a policy of appropriating for distribution each year a target of 5% of its endowment funds' average fair value over the prior 12 quarters through the quarter ending March 31, proceeding the fiscal year in which the distribution is planned. In establishing this policy, the Organization considered the long-term expected real return on its endowment. This is consistent with the Organization's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

Note 15 - Related-party transactions:

The Organization's volunteer members of the Board of Directors are active in oversight of fundraising events, activities and in making private contributions. Contributions received from the Board of Directors, from companies with which the Board of Directors are affiliated or from employees of the Organization were \$1,869,983 and \$730,041 for the years ended June 30, 2021 and 2020, respectively. Outstanding pledge receivables from the Board of Directors or from companies with which the Board of Directors are affiliated were \$550,000 and \$210,000 for the years ended June 30, 2021 and 2020, respectively.

Note 16 - Concentrations:

Financial instruments which potentially subject the Organization to concentrations of credit risk consist primarily of investments, pledges and grants receivable, notes receivable and cash. Investments are maintained in a diversified portfolio with the assistance of professional investment advisors. The Organization may have risk associated with its concentration of investments in one geographic region and in certain industries. Pledges receivable are from donors who will pay according to agreed-upon payment schedules through 2029, and the Organization believes these amounts are fully collectible. The notes receivable are fully secured at June 30, 2021. The majority of the Organization's cash was held at one financial institution at June 30, 2021. The cash equivalents held with the Organization's brokerage firm are not insured. The checking and money market accounts held at the Organization's bank are completely insured up to a combined limit of \$250,000 by an agency of the federal government.

For the year ended June 30, 2021, one donor accounted for 14% of the Organization's contributions and grants. For the year ended June 30, 2020, one donor accounted for 11% of the Organization's contributions and grants.

Note 17 - Benefit plans:

Peninsula Open Space Trust Defined Contribution Retirement Plan - The Organization had a defined contribution plan ("DC Plan") in which employees who had worked for at least 12 months and 1,000 hours or more during those 12 months were eligible to participate. The Organization's contributions to the DC Plan were \$197,936 for the year ended June 30, 2020. Effective March 1, 2020, this plan was replaced by the 401(k) plan below.

Peninsula Open Space Trust Tax-Deferred Annuity Plan - The Organization had a tax-deferred annuity plan ("TDA Plan") in which employees were able to make voluntary, tax-deferred contributions within specified limits. The TDA Plan was established under the provision of Section 403(b) of the Internal Revenue Code. Effective March 1, 2020, this plan was replaced by the 401(k) plan below.

Peninsula Open Space Trust 401(k) Plan - Effective March 1, 2020, the Organization has replaced the existing DC Plan and TDA Plan with a 401(k) plan. Employees may participate in the plan upon hire and become eligible for employer matching and contributions when they complete 12 months of employment and have reached 21 years of age. The Organization's contributions to the 401(k) plan were \$340,425 and \$103,366 for the years ended June 30, 2021 and 2020.

Note 17 - Benefit plans (continued):

Peninsula Open Space Trust 457(b) Deferred Compensation Plan - Effective March 1, 2020, the existing 457(b) deferred compensation plan was frozen and replaced with a new 457(b) plan. Participation in the new Deferred Compensation Plan is available to members of the executive staff and contributions to the plan were \$11,000 for the years ended June 30, 2021 and 2020, respectively.

Note 18 - Section 125 cafeteria plan:

The Organization has a cafeteria plan (“Cafeteria Plan”) under Section 125. To the extent provided in the Cafeteria Plan, eligible employees can withhold pre-tax dollars in a spending account which the employee can use for reimbursements of certain medical, dependent care and adoption expenses.

Note 19 - Commitments and contingencies:

Offers to dedicate - The Organization periodically acquires properties subject to contingent restrictions on the title known as offers to dedicate. Offers to dedicate are sometimes required by grantors as a means to ensure the Organization maintains the land in a manner consistent with the grantors’ wishes. These provisions are consistent with the Organization’s mission and generally include restrictions regarding the preservation of land for conservation purposes, that the land is not used to secure debt, and that the land may not be transferred without prior approval of the grantor. If the Organization were to violate these provisions or to cease business, the offers to dedicate would automatically transfer title to the grantors. There were no acquisitions subject to offer to dedicate provisions during the years ended June 30, 2021 and 2020.

Contingency: COVID-19 - In March 2020, the world was impacted by a coronavirus disease (“COVID-19”) pandemic. As a result, many businesses closed their doors in order to assist in the containment of the virus. Creative solutions and further knowledge on COVID-19 has subsequently improved the situation, yet the overall impact of the pandemic is still uncertain. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration. Individuals employed by these businesses will be directly impacted by the loss of wages. Should the close of these businesses continue for an extended period of time, participants and donors may also be impacted and have difficulty in continuing to support the Organization. The duration and outcome of these events and the ultimate impact on the Organization is unknown at this time.
